PROFILE SUMMARY

Full Stack Software Developer and Software Engineering student with hands-on experience developing modern web applications through academic projects. Proficient in React, Angular, ASP.NET Core, Node.js, PHP, SQL Server, and MySQL, with experience building responsive user interfaces, RESTful APIs, and scalable database solutions. Experienced in Git, GitHub, Agile methodologies, and object-oriented programming. Passionate about software development, continuous learning, and delivering high-quality software solutions.

Currently seeking a Junior Software Developer opportunity where I can contribute to real-world projects while continuing to grow as a software engineer.

EDUCATION

Bachelor of Software Engineering (In Progress)

2023 – Present

Technical National University (UTN), Alajuela, Costa Rica

Expected Graduation: December 2027

EXPERIENCE

Full Stack Developer – Payroll Management System (Academic Project)

2026

Alajuela, Costa Rica

- Built a complete payroll system managing employee records, salaries, and payment processing for 50+ employees.
- Developed a dynamic, responsive frontend using Angular with modular component architecture.
- Designed and implemented RESTful APIs with Node.js and Express for payroll calculation and reporting.
- Architected and managed a normalized MySQL database with optimized queries for payroll data.
- Applied clean code principles and MVC structured architecture throughout the project.

Full Stack Developer – Automotive Parts E-Commerce (Academic Project)

2025

Alajuela, Costa Rica

- Developed a full-stack e-commerce platform supporting a catalog of 200+ automotive parts with search and filtering.
- Built a responsive React frontend integrated with a PHP MVC backend via REST APIs.
- Designed and optimized a MySQL database schema for efficient product, order, and inventory management.
- Improved UI/UX using Bootstrap, reducing friction in the product browsing and checkout flow.
- Used Git and GitHub for version control, branching strategy, and team collaboration.

Full Stack Developer – EduNova Academic Management System (Academic Project) 2025

Alajuela, Costa Rica

- Developed an academic management platform using ASP.NET Core, C#, SQL Server, and JavaScript.
- Implemented authentication and role-based authorization.
- Designed and developed RESTful APIs for academic management modules.
- Built dashboards and administrative interfaces for users and incidents.
- Applied layered architecture, object-oriented programming, and Git version control.

TECHNICAL SKILLS

Frontend: Angular, React, HTML5, CSS3, Bootstrap

Backend: Node.js, Express, ASP.NET Core, PHP (MVC)

Languages: JavaScript, TypeScript, C#, Java, PHP

Databases: MySQL, SQL Server, Oracle Database

Tools: Git, GitHub, REST APIs, Axios, Postman, REST Client

Concepts: Object-Oriented Programming, MVC Architecture, RESTful APIs, CRUD, Agile (Scrum)

LANGUAGES

Spanish: Native

English: Basic

CERTIFICATIONS

- JavaScript Essentials 1 – Cisco Networking Academy (2025)
- JavaScript Essentials 2 – Cisco Networking Academy (2025)
- Academic Process Mining Fundamentals – Celonis Academy (2025)

SOFT SKILLS

- Problem Solving
- Teamwork
- Communication
- Adaptability
- Continuous Learning
